BUS FRAMER

**CROSS-REFERENCE TO RELATED APPLICATION**

5 This application claims priority to U.S. Provisional  
Application No. 60/329,809, which was filed on October 15,  
2001 and titled "Sol Computer Architecture" (Attorney Docket  
No.: 10559/659P01/P12874Z).

**TECHNICAL FIELD**

10 This invention relates generally to a bus framer and an  
architecture therefor.

**BACKGROUND**

15 A computer bus (or simply "bus") is a collection of wires  
over which data is transmitted between devices, such as a  
processor and a memory. Data is transferred over a bus in a  
specific format. For example, the data may be transferred in  
"frames". Generally speaking, a frame is a data structure  
that organizes data packets into time slots that specify the  
20 order in which the data packets are to be transferred. Other  
information may also be included in a frame, such as the  
port(s) to which data packets are to be transferred.

***Examiner's Amendment/Comment***

1. The drawings filed on 10/25/01 are acceptable for examination. Formal drawings is required when the application is allowed. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

***Examiner's Statement of Reasons for Allowance***

2. Claims 1-30 are allowable over the prior of records.

3. The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1, 11 and 21 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts. Prior art fails to teach frame data structure having blocks arrange in N rows and M columns, where N and M are integers that are greater than one thus a block including data used to implement a bus frame protocol and designating a destination port of a receiving device and a time slot for the data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tim T. Vo whose telephone number is 703-308-5862. The examiner can normally be reached on 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Rinehart can be reached on 703-305-4815. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
